

YOUR SOURCE OF CONTAINMENT GLAZING FOR THE ZOO AND AQUARIUM INDUSTRY

GLOBAL SECURITY GLAZING has been a leading provider of glass and glazing for Zoos and Aquariums. Our focus on this segment includes the ability to provide many options to meet the design and security needs of our clients.

- Multi-ply laminated glass
- Bent glazing
- "Bird friendly" glazing
- Glass-clad polycarbonates and composites
- Silk-screens, colors and decorative glazing
- Anti-reflective glazing
- Design consultation available

GLOBAL SECURITY GLAZING has become the leading single source for the industry's security glazing requirements. Our products are fully tested to specific standards and threat levels for projects requiring **Bullet, Containment, Attack** and **Blast** resistant glazing, such as Courthouses, Embassies and other Government Buildings, Correctional Facilities, **Zoos**, Hospitals and Stadiums.

Global Security Glazing offers a complete line of security products including all-glass laminates, glass-clad polycarbonates and Lexgard® laminated polycarbonates. Our line of architectural products also includes ceramic frit printing, tempered glass, chemically strengthened glass, bent glass, insulated glass and laminated glass.
